Description

For over 135 years, Elsevier has been helping professionals advance knowledge by expanding the body of information, and enabling it to yield positive, measurable results. Elsevier is an information solutions company with roots in publishing scientific, medical, and technical literature. We continue to produce intellectual content—largely in the form of digitized books, journals, and proprietary databases—via web-based and offline channels. In addition through our platforms, we provide integrated technology and analytics that enable clients and end-users to do 'more with' information: to interact with it, manipulate it, share it, and extract intelligence with greater flexibility, efficiency, and creativity.
